EDUCATION

Pursuing
BCA under
**GURU NANAK
DEV UNIVERSITY**

PROGRAMMING LANGUAGES

Proficient in:
JavaScript

Familiar with:
Java
Python
C

FRAMEWORK/TOOLS

React
HTML
CSS
BootStrap
Vite
Express

MongoDB
Firebase
Node.js
Tailwind Css

WORK EXPERIENCE

FRONTEND DEVELOPER

CTRLB | BENGALURU 22June - 22 December 2024

- Solely led frontend development in a **fast-paced startup environment**
- **Restructured the entire frontend folder architecture**, implement **ESLint**, enhancing code scalability, maintainability, and developer onboarding efficiency.
- Enhanced the **Logs UI**, improving clarity and accessibility for log data visualization on the frontend.
- **Gained deep insights into observability practices**, understanding how logs, metrics, and traces contribute to system reliability and performance monitoring.

PROJECTS

1. PiperChat [Demo](#) | [Github](#)

- Used technologies like **Node, MongoDB, SocketIO, and React** to build **DISCORD CLONE** from scratch.
- Developed features like Create Servers and Create Channels, allowing users to create and manage their chat servers.

2. Infosphere [Demo](#) | [Github](#)

- Developed a user-friendly blog web application using **React and Firebase**.
- Integrated a commenting feature that allows users to engage with posts by adding comments.
- Implemented Firebase for data storage, and React for good UI.

3. Reactron [Demo](#) | [Github](#)

- This is a web **BLOG APPLICATION** with a custom backend.
- Created a custom backend using Node and Express, optimizing performance and security.
- Implemented **CRUD** operations for users, allowing them to update their profile settings, change passwords, and delete their accounts securely.

4. Mern-Auth [Demo](#) | [Github](#)

- Utilized **JSON Web Tokens (JWT)** for secure user authentication enhancing the overall security of the application.
- Integrated **MongoDB** as the database to store users securely.
- Designed and implemented RESTful APIs for user registration, login, and other authentication-related functionalities.
